

I am looking for a **Project Associate 1** to work in my lab at the Centre for Ecological Sciences at IISc in Bangalore. We study ecological interactions between species, and the consequences of these interactions at the population and community levels, mostly using insects and plants. See <http://ces.iisc.ac.in/new/?q=user/435> for more details about our research.

The salary is Rs.25000-31000 depending on eligibility. The applicant should have at least a Master's degree in Natural or Agricultural Sciences / MVSc or bachelor's degree in Technology or Medicine from a recognized University or equivalent. Duties will be helping to set up a laboratory and conducting routine chemistry and molecular lab work as needed by the research group. The applicant should be organized and able to communicate well and work collaboratively.

Interested applicants should send an email with a CVs to Saskya@iisc.ac.in by Jan. 20th 2022.
